

A few quotes from people who know Roseann Mikos ...

“Moorpark needs more people like Roseann. Any city could use more people like Roseann. People truly dedicated to public service like she is are hard to find. Roseann Mikos has demonstrated tremendous dedication to Moorpark and to helping make it a great city. She will be an excellent representative for the people of Moorpark.”

Richard Francis, Co-architect of the Save Open Space and Agricultural Resources (SOAR) movement and former Mayor of Ventura.

“Our community is very fortunate to have someone of Dr. Mikos’ abilities who is willing to donate her time to community service. She has the intelligence, energy, and dedication to be an outstanding city councilmember. Roseann will vigorously work to enhance and defend those special qualities that make Moorpark a wonderful place to live and raise a family. I look forward to working with Dr. Mikos on the next Moorpark City Council.”

Dr. Clint Harper, Moorpark City Councilmember and former Mayor

“I worked closely with Dr. Mikos on the Park Mail Ballot Assessment last year. I was thoroughly impressed with her heartfelt and extreme dedication to Moorpark and its parks. People should be grateful for her help. No one spent more time than she did to make sure that the public was well informed and to encourage people to vote. We could not have passed the mail ballot without Roseann Mikos. When she is committed to an issue, Roseann really ‘walks the talk.’ I know she will make an excellent councilmember.”

June Dubreuil, Chairperson of Moorpark Parks and Recreation

Dr. Roseann

Mikos

for

Moorpark

City Council

Roseann Mikos has a vision and a plan for Moorpark ...

- Keep Moorpark a small, safe town and work to make us a better community,
- Move the Moorpark City Hall to High Street to “jump-start” downtown revitalization,
- Limit the truck traffic on Highway 118 through Moorpark,
- Provide a broad range of recreational opportunities for all community members from kids to seniors,
- Build coalitions between the Moorpark Unified School District, Moorpark College, and the City of Moorpark to benefit the entire community,
- Work to build consensus on how to strengthen the Tierra Rejada Greenbelt Agreement and to acquire state, federal and private funding for conservation easements or other protection measures that support low intensity green belt uses,
- Support City and County SOAR measures to protect surrounding farmland/open space and vigorously defend the Moorpark SOAR against challenges by special interests, thereby protecting the people’s hard-fought right to vote.
